

Flexible Spending Account

(with carryover)

A healthcare FSA lets you use tax-free money to pay for eligible medical, dental, and vision expenses.¹ So you spend less on the healthcare you need. FSA paycheck deductions are tax-free too, which helps reduce your taxable income. The more you contribute, the more you save.

- ✓ Pay for your spouse and dependents too.
- ✓ Carry part of your unspent funds into the next plan year.²
- ✓ Plan ahead because funds that don't carry over will expire.

Don't tax your money. Max your money.

Get \$20 tax savings for every \$100 you contribute.³

you can save.

HealthEquity.com/Learn/FSA

¹FSAs are never taxed at a federal income tax level when used appropriately for eligible healthcare expenses. Also, most states recognize FSA funds as tax deductible with very few exceptions. Please consult a tax advisor regarding your state's specific rules. | ²The example is for illustrative purposes only. Estimated savings are based on a maximum annual contribution and an assumed combined federal and state income tax bracket of 20%. Actual savings will depend on your contribution amount and taxable income and tax status. | ³Contribution limit is accurate as of 11/09/23. Each fall the IRS updates the FSA contribution limits.
