C. HSA-COMPATIBLE FSA OPTION

HealthEquity offers a unique type of Healthcare FSA plan that allows an employee who is covered under an HSA to also participate in a Healthcare FSA. This plan is referred to as an HSA-Compatible FSA.

Once an employee has met the deductible for their High Deductible Health Plan (HDHP), the account may be used for items and services typically covered by a standard FSA.

Here is how this plan works:

- This HSA-Compatible FSA cannot be used for medical or pharmacy expenses until the participant's deductible for their HDHP is met.
- If the employee is designating their FSA as HSA-Compatible, they must select this benefit prior to the plan year start date. There is no option to change from a standard FSA to an HSA-Compatible FSA once the plan year begins.
- Per IRS Regulations, an employee may not self-certify that they have met the deductible of their HDHP. Proof that an employee has met their HDHP deductible must be verified either by the Employer or by the employee submitting proof to HealthEquity that the plan's HDHP deductible has been met (depending on plan setup choice selected below).
- If the Employer's HDHP has a higher deductible than the minimum required statutory amount, the HSA-Compatible FSA can begin reimbursing medical or pharmacy expenses when the statutory amount is met.

Please indicate below how the HSA-Compatible FSA will be set up and maintained during the plan year (or choose "HSA-Compatible FSA Option Not Available" if this does not apply to your program):

- Employee Management of Initial Enrollment Selection of HSA-Compatible Option and Post-HDHP Deductible Substantiation.** (Selection on Participant Site prior to plan year start and/or by Employer via enrollment file. Proof that the HDHP deductible has been met is provided to HealthEquity by the employee submitting the HDHP Form along with substantiation documentation of the HDHP deductible to HealthEquity and/or by the Employer via PSF.)
- Employer Managed Initial Enrollment Selection & Employee Managed Post-HDHP Deductible Reset.** (Selection on Participant Site is not available. The employee submits the HDHP Form and proof of deductible met to HealthEquity and/or by the Employer.) *This option also allows both the Employer and the employee to provide documentation to enable the account to be used for standard FSA eligible items after the HDHP deductible has been met.*
- Employer Managed Initial Enrollment Selection & Employer Managed Post-HDHP Deductible Reset.** (Selection on Participant Site is not available. Post-deductible reset made by the Employer.) *This option is recommended only if the Employer will be handling the initial selection of the HSA-Compatible FSA option as well as providing the documentation that the employee has met the HDHP deductible, thus enabling the reimbursement of standard eligible items after the HDHP deductible has been met.*
- Post-HDHP Deductible FSA Not Available**
- HSA-Compatible FSA Option Not Available**
